

TRIP TO MORAVIAN KARST (Punkva caves)

Departure from the faculty (AMBIA venue): Saturday (9.9.2017) at 9:45

Arrival to Skalní mlýn: at about 11:00

Walking distance from bus (Skalní mlýn) to the caves: 1,5 km (we'll go together)

Start of guided-tour: 11:40

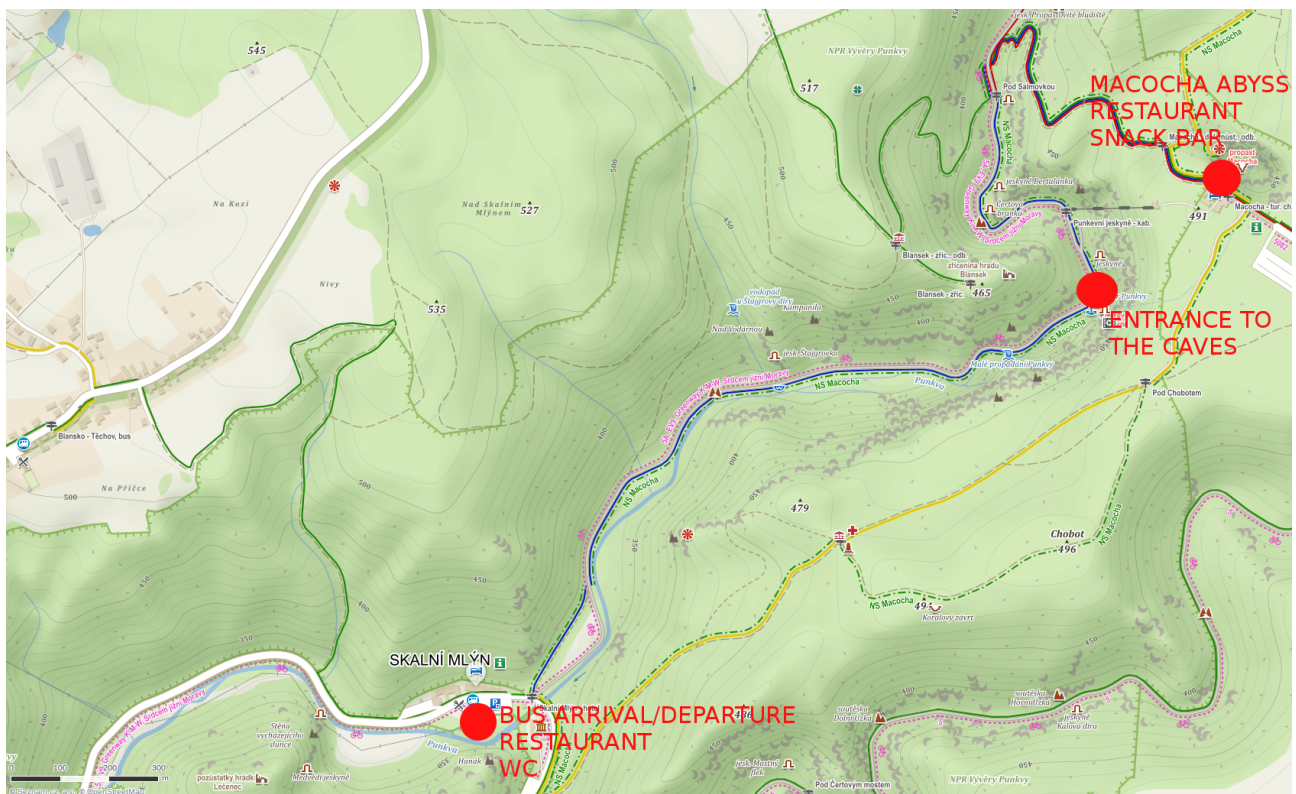

The average temperature in the caves is about 4-10°C and the tour lasts 60 mins.

When the guided tour is finished, there will be an option to walk (easy trip) to the top of the Macocha abyss. You may use teleferic but you won't enjoy the beauties of the nature in this area. We recommend to go on foot.

No lunch/snack is provided on Saturday. There are restaurants and snack-bars in the area of the parking place and next to the Macocha abyss. There is no refreshment near the entrance to the caves.

Departure from Skalní mlýn: 16:00 (please, be there in-time)

Arrival to the faculty (AMBIA venue): Saturday (9.9.2017) 17:00

If you are used to working with on-line maps, we recommend you to install the mobile application (from GooglePlay or AppStore) **mappy.cz** with the offline version of the maps of the Czech republic. In the area of Moravian Karst you will probably have no signal (no calls and no 2G/3G/4G).
